Dear Matthew:

I am writing this letter to say how pleased the Town of Somers is with the performance of EZ Street Cold Asphalt. This is the first year that we have used the product and it is performing to the standards that we expected through our conversations with you.

In past years, we have used standard cold asphalt with the hopes of just getting us through the winter until we can replace with hot asphalt after the weather turns warmer. With the results that I have seen with EZ Street I know that I will not have to take the time to go back to the spots that we repaired in the winter. This is saving our town time and money!

I highly recommend the use of EZ Street to other organizations and have been spreading the word of this superior product to other people in my area.

Best Regards,

Thomas Chiaverini
